

Miss Stevens

Just as many members of my family before me, I attended Sacred Heart Parish School from kindergarten through eighth grade. I feel blessed to have received a wonderful education, had great teachers, and made life long friends. My intention from a young age was to return to my alma mater as a teacher.

I received both my Bachelor's Degree and teaching credential from Cal Poly, San Luis Obispo. After graduating in 2007, I was ecstatic to accept a job teaching third grade at SHPS. In addition, I also received a Master's degree in education through Fresno State University.

Positive attitude and energy are two things I strive to bring to my classroom each day. The students, parents, and staff make our school a wonderful place to be, and I love my job! I whole heartedly believe in and support the school wide commitment to teaching the gospel message of Christ, to building community based on Jesus' command to love one another, and to serving through prayer, worship, and social action. Christ is truly alive in our school, and I look forward to serving him further through my work at our school.
